

Rhonda Bone  
President

Dear fellow NPA Southwest members:

Welcome to all new and old NPA Southwest members. I'm Rhonda Bone from San Antonio Texas with Rhonda's Nature's Way and as of April 26<sup>th</sup> your new President.

I have been in the industry now for about 39 years and have served on the NPA-SW board for the last 4 years on various committees and as convention chair for several years. I welcome all of you to step up and volunteer on any of our committees and play an active part in our legislative issues, in whatever state you are from and also contribute whatever time you have to your organization on a committee.

Thank you for checking our website. If you are not already a NPA Southwest member, we encourage you to join. Our industry needs your support to continue to speak on your behalf and thrive as an organization. Please let us know in what, if any way we can help you in our industry better.

I thank all who came to the show in Austin this past April and all who helped make it a great show! Your show of support to the vendors who take the time and money to be there for you is invaluable! Without you there would be no more show! I hope you all took back viable information to use in your stores. I look forward to hearing from you over the year and seeing you at our show next year. Watch our website and your mail soon for information.

We hope you find the information included in your membership packet a value to you. Please proudly display your association logo in your store/business window. Let them know you take their health and wellness seriously by continuing to learn and be a part of your industry association.

Additionally, you will find the book Galilio's Lawyer, generously donated to you, our members, by the author Richard A. Jaffe, ESQ. For more information on Richard and other books go to [www.richardjaffe.com](http://www.richardjaffe.com). We thank Mr. Jaffe for his incredible donation to our members.

We, the board members are willing to help anyone we can with your needs, just contact us!

Regards,

Rhonda Bone

President, NPA Southwest
